

THE DINING-ROOM AND ITS FURNISHING

Is considered by housekeepers to justify the most painstaking care—it is used more nearly all the time than other rooms and should be comfortable and pleasing in its appointments.

You have the privilege of selecting from our large stock any article that you may need to complete your dining-room, and have such liberal terms of payment that no one should fail to take advantage of it.

Round Tables are in favor at this time and add greatly to appearances when not in use, priced from \$15.00 to \$40.00. We have, of course, Tables from \$3.50 up.

Sideboards, Buffets, Side Tables and China Cases that will match these Tables are shown in great variety and at prices very much lower than the quality.

We are agents for the celebrated Gurney Refrigerator; it is made in every known style and priced no higher than the ordinary kind; \$6.50 will buy a small one, and the prices go up into the very large and expensive kind.

ELEVATORS TO SHUT DOWN

Exports Fallen Off on Account
of Holding Grain by
Owners.

THIRTY MEN THROWN OUT

New Elevator Closed Some Time
Ago and Old One Now Close
Until Conditions Change.

(Special to The Times-Dispatch.)
NEWPORT NEWS, VA., May 2.—On May 1st elevator "A," the Chesapeake and Ohio Grain Elevator Company's old elevator, will be swept clean, and its doors locked until further notice. Walter S. Uphur, agent for the company, has issued a notice to his employees to the effect that their services will not be needed after the above date.

Every man in the office and in the elevator, except the agent himself, will be affected. Among these are men who have been in the service of the company from ten to thirty years.

The company has been doing business here for fifteen years. For the first twelve an enormous amount of grain was shipped through here. Several years ago, soon after the new elevator was completed and put into service, the discrimination of the railroads against the port caused the business to fall off. The new elevator was closed and the trade gradually dwindled away, until there was nothing to be done in the old building.

The force was steadily decreased, and at this time the company is not employing over thirty men. Mr. Uphur says that the reason for the unusually dull spell just at this time is the fact that the farmers are holding their grain for the market.

He hopes for better times in the near future, and states that it is very probable that one of the elevators will be in operation again by July 1st.

BAKERS STRIKE.

Proprietors Knead Dough All
Night to Supply Demand.

(Special to The Times-Dispatch.)
NORFOLK, VA., May 2.—The Connecticut Company agreed to accept the union scale this morning, and the number of bakers in Norfolk on strike was depleted by eight. This leaves forty-four bakers.

The strike of the bakers was a cause of great embarrassment to the bakeries closed Saturday night. Norfolk consumes something like 2,500 loaves of bakers' bread a day.

To supply the usual amount of bread without the aid of their union bakers and without non-union bakers in the city, upon which to draw, has been quite a problem. The proprietors of most of the bakeries, included in the strike, worked all night last night and with the assistance of help obtained through the want columns of local newspapers, managed to supply their trade this morning. How long they will be able to work under such a strain is not known.

"We will not have to import bread from other cities to supply our trade," stated Mr. W. H. Davis, the proprietor of the largest bakery in Norfolk, which was included in the walkout of union bakers Saturday night. "We expect to make our own bread. With local help I am running the bakery myself until tomorrow or Wednesday. By that time we will have practical bakers in charge of every department. We have men on their way to Norfolk from Philadelphia and other Northern cities now."

Mr. Davis spoke as chairman of the local branch of the Master Bakers' Association of America, and who applies to his bakery applies to the other bakeries.

THE BID IS APPROVED

The Atlantic Dredging Company
Awarded Contract for Appomattox Diversion Scheme.

(Special to The Times-Dispatch.)
PETERSBURG, VA., May 2.—The registrars of this city have given notice that they will transfer to the proper voting places all voters who by the redistricting of the city find themselves in other wards than that in which they originally registered. For the convenience of the citizens generally, and those that wish to vote at the approaching Democratic primary, they will be at the courthouse next Friday after 10 o'clock in the morning.

Captain E. E. Winslow, of Norfolk, United States engineer, in charge of the Appomattox Improvement for Petersburg, has approved and forwarded to the department the bid of the Atlantic Dredging Company of Philadelphia for the work of improving the river in accordance with the plans. There were only two bids that came within the limit of the appropriation of \$200,000 made by the government for this work. The bid of the New York firm was \$180,000, and that of the Atlantic Dredging Company was \$137,000. It is believed that the contract will soon be let, and the work will begin immediately.

A GREAT REVIVAL.
The revival, which is in progress at the High Street Methodist Church, reached a climax of spiritual interest and power yesterday. The scene which transpired in the Pikesen class room was one long to be remembered. After an appeal by the pastor and teacher about twenty men professed religion. A season of rejoicing followed, during which men wept upon each other's necks. In the main auditorium of the school there were nineteen converts and a number of companions.

In the morning service there were five conversions. At night the large and spacious edifice was crowded to its utmost capacity and after a sermon upon "The General Judgment," there was a great awakening and a number of conversions. Throughout the entire day there were sixty-five conversions and reclamations, and during the meeting there have been at least seventy. The revival will continue every night this week, and Rev. J. K. Jolliffe, who preached last week with so much ability and power, returned this afternoon and preached to-night.

METHODISTS IMMERSED.
At the Second Baptist Church last night the pastor, Rev. F. W. Moore, preached on "Baptism," after which he baptized eighteen persons. At the conclusion of the service at Second Baptist Church, Rev. S. C. Hatcher, of Market Street, immersed the young men who had connected themselves with his church and who professed this mode of baptism. Sixty-nine candidates were baptized at the Harrison Street (colored) Baptist Church yesterday.

An adjoined congregational meeting was held at Second Presbyterian Church yesterday, when Messrs. J. W. Friend and Sterling I. Bragg were elected additional deacons. The full board of deacons will consist of the following: Carter R. Bishop, W. E. Bensley, A. M. Hill, Frank A. Owen, A. G. Smith, J. W. Thomas, F. F. Thwait, Hugh R. Smith, Jr., George B. Townsend, S. D. Rogers, J. W. Friend and Sterling I. Bragg.

TO RAISE A SCHOONER.
The schooner John B. Taylor, which was partially sunk at the wharf about two weeks ago, may be raised to-morrow. The tide is low enough for the work. Men will make an effort to raise the schooner by building a coffer dam around her and pumping out the water with one of the city's fire engines.

Cato Howell, a little nine-year-old boy, who was known to leave his home in South Norfolk by a tramp, was taken up by the police here Saturday night. The little fellow was anxious to get home again, and yesterday at the request of the police, Mr. C. A. Clark took the little fellow down to the Tribby excursion and delivered him to his mother.

During the past month sixty-seven deeds were admitted to record in the office of the clerk of the courts. Twenty-three marriage licenses were issued—fourteen to white and nine to colored couples.

The physical director of the Y. M. C. A. will organize a business men's class to-morrow evening at 8 o'clock.

Mr. O. D. Andrews, for some time past traveling salesman for R. E. Lunford and Company, has accepted a similar position with the Virginia Trunk and Bag Company, and left to-night for his headquarters in Pittsburg, Pa.

IN EDINBURGH.
New Enterprises in One of Virginia's Liveliest Towns.

(Special to The Times-Dispatch.)
EDINBURGH, VA., May 2.—A new enterprise employing upwards of twenty-five hands has been established here. Messrs. Simmons and Solomon, of Delaware, are the promoters and owners of the manufactory which turns out a high grade of rims and spokes for shipment to Northern markets.

Mr. W. A. Wren is doing a large business in the shipment of car lumber from this place. He has two or three saw-mills constantly sawing lumber. The sawing is done in the mountains and the hauling and loading on cars here gives employment to a number of people.

The old Liberty Iron furnace has been purchased by Mr. Gaffney, of St. Louis, Mo., and he has repaired the narrow gauge railroad and put the furnace in operation under the name of "The Monarch Hot Blast Furnace Company."

He has over 200 men on his payroll, and is turning out excellent quality of iron.

The outlook for wheat is good and the recent rains seem to assure successful planting of corn.

Mr. James B. Coffman, who about a year ago removed with his family to Iowa, has returned to his old home here. He has bought a farm near Edinburg and will move on it soon.

Temperance sentiment is slowly, but surely, gaining ground here. There is only one bar-room in town of about 700 inhabitants.

HAPPY MOTHER'S TOUCHING STORY

Of Baby's Dreadful Suffering from Eczema.

CURED BY CUTICURA.

Now His Skin Is as White as a Snow Flake.

"A terrible rash broke out on Charlie's poor little face and spread to his neck, chest and back. I had never seen anything quite like it before," writes Mrs. Helena Bath of 821 10th Ave., N. Y. City. "The skin rose in little lumps, and matter came out. My baby's skin was hot, and he did suffer. He wouldn't eat, and at night after night I walked the floor with him, weak as I was. Often I had to stop because I felt faint and my back throbbed with pain. But the worst pain of all was to see my poor little boy burning with those nasty sores. At last I was persuaded by a friend across the street to try the Cuticura Remedies. She gave me some Cuticura Ointment—I think the box was about half full—and a piece of Cuticura Soap. I followed the directions, bathing Charlie and putting that nice Ointment on the sores. Little by little, but so surely, Charlie and I both got more peace by day and more sleep by night. The sores sort of dried up and went away, and now Charlie is cured completely."

"Yes, that fat little boy by the window is Charlie, and his skin is as white as a snow flake, thanks to the Cuticura Remedies. I think everybody should know about the Soap and Ointment, and if it is going to help other mothers with sick babies, go ahead and publish what I have told you."

Sold throughout the world. Cuticura Remedies, 821 10th Ave., N. Y. City. (In form of Chocolate Coated Pills, 50c. per box of 70, and in form of Cuticura Soap, 15c. per box of 100.) Paris, 5, rue de la Paix, 10c. per box of 100. Also sold in all drug stores. Send for a free sample of the Cuticura Soap and Ointment.

WHINNYING HORSES
ARE HARMLESS BIRDS

Cranes, When Mating, Make a
Noise Like Young
Colts.

(Special to The Times-Dispatch.)
COMORON, VA., May 2.—(Whinnying horses," referred to by several press correspondents of late, are not strangers to this section, lying between the Potomac and Rappahannock Rivers. Every April they fill the air with that distressing sound that cannot be distinguished from the neighing of young colts, and the superstitious element of the people, who never accept explanations of natural causes, declare that these unwelcome spring visitors are "air colts," and are always forerunners of death and various phenomenal conditions.

These "dreadful air colts" are never heard here except in the spring—April generally—and almost invariably in the nighttime, though they have been known to pass over once or twice about 9 o'clock in the morning. It may be consoling to some, at least, to be informed that these "whinnying horses," or "air colts," are entirely harmless, as they are nothing more nor less than swans or cranes, which make the peculiar "neighing" sound while in their flight from one section to another.

During the winter these big birds feed in flocks, but in the springtime come they separate, and pairs of them travel together in search of summer homes, where they lay eggs and hatch their young birds. It is while thus journeying, and at no other time, that they "neigh" like colts.

Early last week some of these birds, alias "air colts," passed over this section in their annual journey from the Rappahannock to the Potomac, where they are now probably laying their eggs and generally arranging for "housekeeping" in their summer home.

THE MAYORALTY DISCUSSION

George W. Jones Charges Alvah
H. Martin With Trying to
Influence a Vote.

(Special to The Times-Dispatch.)
NORFOLK, VA., May 2.—In the hearing of the Norfolk county case before the State Central Committee Friday, George W. Jones, charged Alvah H. Martin with attempting to influence County Electoral Board Member A. T. Stroud to vote with the Fusionists, by having a boulevard to the Jamestown Exposition built through Stroud's property. Mr. Martin denied the charge in a card in Sunday morning's Virginian-Pilot. Mr. Stroud will publish a card to-morrow, in which he says:

"Mr. Martin spoke to me about property I owned in Tanner's Creek District, and said that a boulevard would have to go down to the Exposition grounds through Tanner's Creek District, and stated that he was vice-president of the Jamestown Exposition Company and chairman of the Boulevard Committee, and would be glad to use the influence of his position to help me out, put some spokes in my wheel, toward getting the boulevard run through my property."

ROUGH AND TUMBLE.
"Chick" Jenkins and Councilman R. H. Gage had a rough and tumble fight on Main Street this afternoon. In which the councilman was badly bruised. Jenkins was appointed grave-digger by the Cemetery Committee, and a hot fight occurred over the ousting of an old employee to make room for him. Gage said in a council meeting he would not like his wife to talk with a man like Jenkins. This remark led to the fight to-day. A majority in the Council increased the Cemetery Committee so as to change its complexion to secure the discharge of Jenkins and the reinstatement of the old employee, Bohrer.

Republican City Chairman Thomas Lowery has called a meeting of the City Committee to arrange for a mass meeting at which candidates for mayorality and Council will be nominated to oppose Democrats in the June election.

In the Sixth Ward, councilman candidates will be endorsed by two Democratic clubs, one good government and another anti-administration.

In the Corporation Court to-day three-year-old Stella May Etheridge became the sister of her mother, Judge Hancok the father of her grandnephew, and Mrs. Charles H. Percebe, to legally adopt her. Her mother, B. Etheridge, the child's father, made a hard fight to stop the adoption. The petition charged that he had abandoned the child. He will take the case to the Supreme Court.

A Face to Face Talk.

These Two Women Have Been
Cured of Catarrhal Dis-
eases by Using
Pe-ru-na.

They Are Telling
Each Other About It.
What They Are Saying
May Interest You.

Don't Miss a Word.

First, we will intro-
duce the ladies. The
one on the left is Miss
Evelyn Morse, of Min-
neapolis, Minn. She
resides at 651 Adams
Street.
The one on the right
is Miss Mary Gray, of
Ontario, Can. She re-
sides at Walkerville.

Miss Morse is saying: "I suffered
nearly three years with catarrh of the
stomach, which no medicine seemed
to relieve until a friend advised me
to try Peru-na."

"Although skeptical, I tried it, and
found it helped me within the first
week."

"I kept taking it for three months,
and am pleased to say that it cured
me entirely, and I have had no symp-
toms of its return."

"I am only too glad to recommend
it as a wonderful medicine, doing all
and more than is claimed for it."

The women all over the United States are saying the same thing about Peru-na. Not one of the vast multitude of women who have been cured by the use of Peru-na ever tire of reciting its virtues or sounding its praises.

It is a friend to friend conversation that advertises Peru-na. All the advertising ever devised would never have brought Peru-na to its present popularity.

People are cured by Peru-na of some chronic ailment that doctors and nostrums have failed to cure. Naturally enough, they talk of the cure. They continue to talk. They never leave off talking until all their friends have tried the remedy.

This explains the rise and phenomenal popularity of the greatest catarrh remedy ever devised by the medical profession.

Dr. Hartman, the inventor and original compounder of Peru-na, gives free, confidential advice to all users of Peru-na.

A., who has just finished inspecting the military companies of the State, shows that the Washington Guards, of this city, Captain F. H. Ryver, of the 1st Virginia Cavalry, ranks as second best in the entire State. The report speaks in most complimentary terms of the company in a general way and says that the men have the snap and appearance of regulars.

Mr. Harvey Pitts, one of the successful Carolina county tobacco planters, has just sold his last year's crop on the Richmond market and received the highest prices of the season. There were three lots, bringing \$35 per hundred, \$25 and \$24, averaging \$27.30 per hundred. Mr. R. S. Foster, of the adjoining county of Loudoun, sold his crop for an average of \$25.22.
